

Heartland

Compliance doesn't have to be complicated

Minimize your compliance costs and protect customer information
with Heartland's Merchant Protection Program.

If you accept credit cards, you're required to maintain PCI (Payment Card Industry) compliance. These are security standards set by credit card companies that help businesses and their customers avoid risks like:

- ✓ Loss of sales
- ✓ Reputation damage
- ✓ Stolen information
- ✓ Fines
- ✓ Revoked credit card privileges

PCI compliance may seem confusing, but that's where Heartland's Merchant Protection Program comes in. We've partnered with Aperia, a Qualified Security Assessor (QSA) and Approved Scanning Vendor (ASV), to give you access to all the resources you need to achieve and maintain compliance with ease.

People do business with companies they trust, and your brand and reputation depend on having the best data security. Now's the time to let Heartland guide you through the process of maintaining PCI compliance so you can focus on customers and growing your business.
